

ISLAND 440RC RUST CONVERTER

DESCRIPTION:

ISLAND 440RC RUST CONVERTER is a metal treatment solution. It is water-based; however, it is highly toxic and contains acid ingredients.

USE:

It is used to chemically convert rust to iron phosphate, a stable, inert, and hard mass that will eventually become part of the metal.

COLOR/APPEARANCE:

Clear to somewhat turbid solution

APPLICATION:

Brush

REDUCTION:

No thinning required, apply as is.

DRYING TIME:

Allow overnight reaction time

THEORETICAL COVERAGE:

Approximately 14 sq. m. per liter on moderately rusted metal

SURFACE PREPARATION:

Merely scrape or chip off loose scales and dust off any dirt accumulation on the metal surface. Then apply liberally with a brush.

PACKAGING:

1L and 3.75L plastic bottle

SHELF LIFE:

1 year in unopened container

NOTE: High humidity might reduce the shelf-life of product.

STORAGE & DISPOSAL:

Keep container tightly sealed. Do not store above 35 °C. Must not be disposed together with household garbage. Do not allow product to reach sewage system. Disposal must be according to government regulations.

The information in this data sheet is based on our current knowledge and experience. In view of the many factors that may affect processing and application, these data do not relieve users from the responsibility of carrying out their own tests; neither do they imply any legally binding assurance of certain properties or suitability for a specific purpose. It is the responsibility of those to whom we supply our products to ensure that any proprietary rights and existing laws and legislation are observed.
